## YEAR 7 INDEPENDENT WORK TASKS

Homework tasks will be set on a weekly basis. Students will have a numeracy homework booklet with weekly tasks that are to be completed. Additionally, students will be set homework assignments through MathsWatch to be completed. All students have their own log-in to MathWatch. Students will be provided with a homework textbook that accompanies the textbook used in lessons. Some students will also be provided with a booklet of UK Maths Challenge problems to support them preparing for the UK Maths Challenge in April.

We encourage all students enrol with Parallel and complete the weekly challenges set through this site. Link: https://parallel.org.uk/. When registering using your school email address, use the school code S5k0s2

Students can undertake additional independent tasks to support developing their understanding and retrieval of the mathematics covered in lessons. Students can do this in several ways:

- Watching Mathswatch clips of the concepts covered in lessons. Link: http://vle.mathswatch.co.uk/vle
- Completing Mathswatch interactive questions on the topics covered. Link: http://vle.mathswatch.co.uk/vle
- Completing homework exercises for the topics covered for the homework book provided. A copy of Maths Frameworking homework book has been provided.
- Completing Corbett Maths textbook exercise or practice questions. Link: https://corbettmaths.com/contents/

Below are the topics covered each term and details of the MathsWatch clip and relevant homework exercise.
There are further tasks towards the end of this document to support enrichment with mathematics that explore and extend the taught curriculum.

TERM 1

## Algebra

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |

| 7.1 Expressions and substitution | To use algebra to write simple expressions and <br> recognise equivalent expressions | Exercise 7A | A4 | Algebra: <br> expressions - <br> forming |
| :--- | :--- | :--- | :--- | :--- |
| 7.1 Expressions and substitution | To substitute numbers into expressions to work out <br> their value | Exercise 7A | A10 | Algebra: <br> substitution |
| 7.2 Simplifying expressions | To learn how to simplify expressions | Exercise 7B | A6, A7a and <br> A7b | Algebra: collecting <br> like terms |
| 7.3 Using formulae | To use formulae | Exercise 7C | A3 | Algebra: <br> substitution |
| 7.4 Writing formulae | To write formulae | Exercise 7D | A7a and <br> A7b | Algebra: <br> expressions - <br> forming |

## Sequences

| Topic | Learning objective | Maths <br> Frameworking exercise | Mathswatch clip reference | Corbett Maths reference |
| :---: | :---: | :---: | :---: | :---: |
| 2.1 Function machines | To use function machines to generate inputs and outputs | Exercise 2A | N26 | Function Machines |
| 2.1 Function machines | To use given inputs and outputs to work out a function | Exercise 2A | N26 | Function Machines |
| 2.2 Sequences and rules | To recognise, describe and generate sequences that follow a simple rule | Exercise 2B | A11a | Sequences: describing rules |
| 2.3 Working out missing terms | To work out missing terms in a sequence | Exercise 2C | A11b | Sequences: missing terms |
| 2.4 Working out the nth term | To work out the nth term | Exercise 2D | A11c | Sequences: nth term |
| 2.4 Working out the nth term | To use the nth term to work out any term in a sequence | Exercise 2D | A11c | Sequences: nth term |

| 2.5 Other sequences | To know and understand the square and triangular number <br> sequences, the Fibonacci sequence and Pascal's triangle | Exercise 2E <br> and 2F | A22 |
| :--- | :--- | :--- | :--- | | Sequences: |
| :--- |
| Fibonacci |

## Fractions

| Topic | Learning objective | Maths <br> Frameworking exercise | Mathswatch clip reference | Corbett Maths reference |
| :---: | :---: | :---: | :---: | :---: |
| 8.1 Equivalent fractions | To find equivalent fractions | Exercise 8A | N23b | Fractions: equivalent |
| 8.1 Equivalent fractions | To write fractions in their simplest form | Exercise 8A | N23c | Fractions: simplifying |
| 8.2 Comparing fractions | To compare and order two fractions | Exercise 8B | N34 | Fractions: ordering |
| 8.3 Adding and subtracting fractions | To add and subtract fractions with different denominators | Exercise 8C | N36 | Fractions: addition diff denominators |
| 8.4 Mixed numbers and improper fractions | To convert mixed numbers to improper fractions | Exercise 8D | N35 | Fractions: mixed number to improper |
| 8.4 Mixed numbers and improper fractions | To convert improper fractions to mixed numbers | Exercise 8D | N35 | Fractions: improper to mixed number |
| 8.5 Calculations with mixed numbers | To add and subtract simple mixed numbers with different denominators | Exercise 8E | N41 | Fractions: addition diff denominators |

TERM 2

## Equations

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 14.1 Finding unknown numbers | To find missing numbers in simple calculations | Exercise 14A | A12 | Equations: solving |

| 14.2 Solving equations | To understand what an equation is | Exercise 14B | A17 | Equations: forming |
| :--- | :--- | :--- | :--- | :--- |
| 14.2 Solving equations | To solve equations involving one operation | Exercise 14B | A12 | Equations: solving |
| 14.3 Solving more complex equations | To solve equations involving two operations | Exercise 14C | A17 | Equations: solving |
| 14.4 Setting up and solving equations | To use algebra to set up and solve equations | Exercise 14D | A17 | Equations: forming |

## Properties number, including factors and multiples

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 1.1 Multiplying and dividing negative <br> numbers | To carry out multiplications and divisions involving <br> negative numbers |  | N19b <br> Negatives: <br> multiplication |  |
| 1.2 Factors and highest common <br> factor | To understand and use highest common factors |  | Number: common <br> factors/HCF |  |
| 1.3 Multiples and lowest common <br> multiple | To understand and use lowest common multiples |  | Number: common <br> multiples/LCM |  |
| 1.4 Powers and roots | To understand and use powers and roots | Number: square <br> root |  |  |
| 1.5 Prime factors | To find the prime numbers of an integer | N30a and <br> N30b | Number: product of <br> primes |  |

## Perimeter, area and volume

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 3.1 Perimeter and area of rectangles | To use a simple formula to work out the perimeter of a <br> rectangle | Exercise 3A | G8b | Perimeter |

| 3.1 Perimeter and area of rectangles | To use a simple formula to work out the area of a <br> rectangle | Exercise 3A | G20a | Perimeter |
| :--- | :--- | :--- | :--- | :--- |
| 3.2 Perimeter and area of compound <br> shapes | To work out the perimeter and the area of a <br> compound shape | Exercise 3B | G24 | Area: L-shape |
| 3.3 Areas of some other 2D shapes | To work out the area of a triangle | Exercise 3C | G20c |  |
| 3.3 Areas of some other 2D shapes | To work out the area of a parallelogram | Area: rectangle |  |  |
| 3.3 Areas of some other 2D shapes | To work out the area of a trapezium | Exercise 3C | G20b | Area: parallelogram |
| 3.4 Surface area and volume of cubes <br> and cuboids | To work out the surface area of cubes and cuboids | Exercise 3D | G21b | Area: trapezium |
| 3.4 Surface area and volume of cubes <br> and cuboids | To work out the volume of cubes and cuboids | Exercise 3D | G21a | Volume: <br> cube/cuboid |

## TERM 3

Statistics

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 6.1 Mode, median and range | To understand and calculate the mode, median and <br> range of data | Exercise 6A | S6 | Averages: median |
| 6.2 The mean | To be able to read and interpret different statistical <br> diagrams | Exercise 6C | S1a and S2a | Graphs: bar charts <br> (reading) |
| 6.3 Statistical diagrams | To create and use a tally chart | Exercise 6D | S3 | Tally charts |
| 6.4 Collecting and using discrete data | To | Exercise 6E | S4 | Types of data: <br> discrete <br> \& continuous |
| 6.5 Collecting and using continuous <br> data | To understand continuous data and use grouped <br> frequency | To develop greater understanding of data collection | Exercise 6F | S5 |
| 6.6 Data collection |  |  | Data handling cycle |  |

## Angles

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 9.1 Measuring and drawing angles | To use a protractor to measure an angle | G10a and <br> G10b | Angles: measuring |  |
| 9.1 Measuring and drawing angles | To use a protractor to draw an angle | Exercise 9A | G10c | Angles: drawing |
| 9.2 Calculating angles | To understand the properties of parallel, intersecting <br> and perpendicular lines | Exercise 9B | G18 | Angles: types of |
| 9.2 Calculating angles | To calculate angles around a point | Exercise 9B | G13 | Angles: full circle (at <br> a point) |
| 9.2 Calculating angles | To calculate angles on a straight line | Exercise 9B | G13 | Angles: vertically <br> opposites |
| 9.2 Calculating angles | To calculate opposite angles | Angles: parallel lines |  |  |
| 9.3 Corresponding and alternate <br> angles | To calculate angles in parallel lines | G18 | Angles: triangle |  |
| 9.4 Angles in a triangle | To know that the sum of the angles in a triangle is 180 ${ }^{\circ}$ | Exercise 9D | G17 | Angles: <br> quadrilaterals |
| 9.5 Angles in a quadrilateral | To know that the sum of the angles in a quadrilateral is <br> $360^{\circ}$ | Exercise 9E | G19 | Triangles: types of |
| 9.6 Properties of triangles and <br> quadrilaterals | To understand and use the properties of triangles | Exercise 9F | G16 | 2D shapes: <br> quadrilaterals |
| 9.6 Properties of triangles and <br> quadrilaterals | To understand and use the properties of quadrilaterals | Exercise 9F | G14 |  |

## TERM 4

## Coordinates and graphs

| Topic | Learning objective | Maths Frameworking exercise | Mathswatch clip reference | Corbett Maths reference |
| :---: | :---: | :---: | :---: | :---: |
| 10.1 Coordinates in four quadrants | To understand and use coordinates to locate points in all four quadrants | Exercise 10A | G1b | Coordinates |
| 10.2 Graphs from relationships | To draw a graph for a simple relationship | Exercise 10B | A14a | Linear graphs: drawing (xy table) |
| 10.3 Predicting graphs from relationships | To understand the connection between pairs of coordinates and the relationship shown in an equation and a graph | Exercise 10C | A14a | Linear graphs: drawing (xy table) |
| 10.4 Graphs of the form $\mathrm{y}=\mathrm{ax}$ | To recognise and draw line graphs with fixed values of $x$ and $y$ | Exercise 10D | A5 | Linear graphs: $\mathrm{x}=\mathrm{a}$ graphs |
| 10.4 Graphs of the form $\mathrm{y}=\mathrm{ax}$ | To recognise and draw graphs of $y=x$ and $y=-x$ | Exercise 10D | A14a |  |
| 10.5 Graphs of the form $x+y=a$ | To recognise and draw graphs of the form $x+y=a$ | Exercise 10E | A14c |  |
| 10.6 Graphs from the real world | To learn how graphs can be used to represent real-life situations | Exercise 10F | A21a | Graphs: distancetime graphs |
| 10.6 Graphs from the real world | To draw and use real-life graphs | Exercise 10F | A21b | Graphs: distancetime graphs |

## Ratio

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 17.1 Introduction to ratios | To use ratio notation | Exercise 17A | R1a |  |
| 17.1 Introduction to ratios | To use ratio to compare quantities | R1b |  |  |
| 17.2 Simplifying ratios | To write a ratio as simply as possible with whole <br> numbers | Exercise 17B | R5a | Ratio: simplifying |
| 17.2 Simplifying ratios | To write ratios in the form 1 : x where x could be a <br> decimal. | Exercise 17B | R6 | Ratio: expressing as <br> 1:n |
| 17.3 Ratios and sharing | To use ratios to find totals or missing quantities | Exercise 17C | R6 | Ratio: given one <br> value |
| 17.3 Ratios and sharing | To write ratios to compare more than two items | Exercise 17C | R6 | Ratio: sharing the <br> total |
| 17.4 Solving problems | To understand the connections between fractions and <br> ratios | Exercise 17D | Ratio: express as <br> fractions or \% |  |
| 17.4 Solving problems | To understand how ratios can be useful in everyday <br> life | Exercise 17D | R1a | Ratio: solving <br> problems 1 |

## TERM 5

## Percentages

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 11.1 Fractions, decimals and <br> percentages | To understand the equivalence between a fraction, a <br> decimal and a percentage | Exercise 11A | N32 | FDP: key equivalents |

| 11.1 Fractions, decimals and <br> percentages | To understand and use percentages greater than 100\% | Exercise 11A | R9a | Percentages: <br> multipliers |
| :--- | :--- | :--- | :--- | :--- |
| 11.2 Fractions of a quantity | To work out a fraction of a quantity without using a <br> calculator | Exercise 11B | N33 | Fractions: fraction of <br> an amount |
| 11.3 Calculating simple percentages | To work out a percentage of a quantity without using a <br> calculator | Exercise 11C <br> amorcentages: of an (non-calc) |  |  |
| 11.4 Percentages with a calculator | To use a calculator to work out a percentage of a <br> quantity | Exercise 11D | N39b | Percentages: of an <br> amount (calc) |
| 11.4 Percentages with a calculator | To know when it is appropriate to use a calculator | Exercise 11D | R9a | Percentages: of an <br> amount (calc) |
| 11.5 Percentage increases and <br> decreases | To work out the result of a percentage change | Exercise 11E | R9b | Percentages: <br> increasing $\backslash$ decreasing |

## Probability

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 12.1 Probability scales | To learn and use the correct words about probability | Exercise 12A | P1 |  |
| 12.2 Combined events | To use sample space diagrams to work out the <br> probability of a combined event | Exercise 12B | P4 | Probability: scale <br> space |
| 12.3 Experimental probability | To understand experimental probability | Exercise 12C | N2a and <br> N2b | Probability: relative <br> frequency |
| 12.3 Experimental probability | To understand the difference between theoretical <br> probability and experimental probability | Exercise 12C | P7 | Probability: relative <br> frequency |

## Symmetry

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 13.1 Line symmetry and rotational <br> symmetry | To recognise shapes that have reflective symmetry <br> and draw their lines of symmetry | Exercise 13A | G3 | Symmetry: line |
| 13.1 Line symmetry and rotational <br> symmetry | To recognise shapes that have rotational symmetry <br> and find the order of rotational symmetry | Exercise 13A | G7 | Symmetry: <br> rotational |
| 13.2 Reflections | To understand how to reflect a shape | Exercise 13B | G4a | Symmetry: line |
| 13.2 Reflections | To use coordinates to reflect shapes in all four <br> quadrants | Exercise 13B | G4b | Symmetry: line |
| 13.3 Rotations | To understand how to rotate a shape | Exercise 13C | G6 | Symmetry: <br> rotational |
| 13.4 Tessellations | To understand how to tessellate shapes | Exercise 13D |  | Angles: tessellations |

## TERM 6

## Interpreting data

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 15.1 Pie charts | To use a scaling method to draw a pie chart | Exercise 15A <br> Graphs: pie charts <br> (draw) | S9 |  |
| 15.1 Pie charts | To read and interpret data from pie charts | Graphs: pie charts <br> (interpret) |  |  |
| 15.2 Comparing range and averages <br> of data | To use averages and range to compare data | S9 | Averages: mean |  |
| 15.2 Comparing range and averages <br> of data | To make sensible decisions by comparing averages and <br> ranges of two sets of data | Exercise 15B | S10a | Averages: mean |
| 15.3 Statistical surveys | To carry out a statistical survey | Exercise 15C |  |  |
| 15.3 Statistical surveys | To use charts and diagrams to interpret data and then <br> write a report | Exercise 15C |  |  |

## 3D shapes

| Topic | Learning objective | Maths <br> Frameworking <br> exercise | Mathswatch <br> clip <br> reference | Corbett Maths <br> reference |
| :--- | :--- | :--- | :--- | :--- |
| 16.1 Naming and drawing 3D shapes | To be familiar with the names of 3D shapes and their <br> properties | Exercise 16A | G12a | 3D shapes: names |
| 16.1 Naming and drawing 3D shapes | To use isometric paper to draw shapes made from <br> cubes | Exercise 16A | G12b |  |
| 16.2 Using nets to construct 3D <br> shapes | To draw nets of 3D shapes | Exercise 16B | G13c | 3D shapes: nets |
| 16.2 Using nets to construct 3D <br> shapes | To construct 3D shapes from nets including more <br> complex shapes | Exercise 16B | G12a | 3D shapes: nets |
| 16.3 3D investigations | To understand the relationship between faces, edges <br> and vertices for 3D shapes | Exercise 16C | G12a | 3D shapes: vertices, |
| edges, faces |  |  |  |  |

## ENRICHMENT TASKS

Parallel Maths tasks - complete the weekly challenges set through the site. Link: https://parallel.org.uk/ . When registering using your school email address, use the school code s5k0s2.

Nrich Maths tasks - read the Latest Feature article or complete an Activity. Link: https://nrich.maths.org/secondary
Cipher Challenge - complete past challenges from the National Cipher Challenge. Link: https://2021.cipherchallenge.org/
Numberphile - find out more about interesting topics in mathematics. Link: https://www.youtube.com/numberphile

## YEAR 8 INDEPENDENT WORK TASKS

Homework tasks will be set on a weekly basis. As one of the two fortnightly tasks, students will be set fortnightly homework assignments through MathsWatch to be completed. All students have their own log-in to MathWatch. Students will be provided with a homework textbook that accompanies the textbook used in lessons. Some students will also be provided with a booklet of UK Maths Challenge problems to support them preparing for the UK Maths Challenge in April.

We encourage all students enrol with Parallel and complete the weekly challenges set through this site. Link: https://parallel.org.uk/. When registering using your school email address, use the school code S5k0s2

Students can undertake additional independent tasks to support developing their understanding and retrieval of the mathematics covered in lessons. Students can do this in several ways:

- Watching Mathswatch clips of the concepts covered in lessons. Link: http://vle.mathswatch.co.uk/vle
- Completing Mathswatch interactive questions on the topics covered. Link: http://vle.mathswatch.co.uk/vle
- Completing homework exercises for the topics covered for the homework book provided. A copy of Maths Frameworking homework book has been provided.
- Completing Corbett Maths textbook exercise or practice questions. Link: https://corbettmaths.com/contents/

Below are the topics covered each term and details of the MathsWatch clip and relevant homework exercise.
There are further tasks towards the end of this document to support enrichment with mathematics that explore and extend the taught curriculum.

## TERM 1

## Working with number

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
|  |  |  |  |

| To carry out multiplications and divisions involving negative numbers | Exercise 1A | N19b | Negatives: multiplication |
| :--- | :--- | :--- | :--- |
| To understand and use highest common factors | Exercise 1B | N31a | Number: common <br> factors/HCF |
| To understand and use lowest common multiples | Exercise 1C | N31b | Number: common <br> multiples/LCM |
| To understand and use powers and roots | Exercise 1E | N30a and N30b | Number: product of primes |
| To find the prime numbers of an integer |  | Number: square root |  |

## Geometry

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To calculate angles in parallel lines | Exercise 2A | G18 | Angles: parallel lines |
| To know the geometric properties of quadrilaterals | Exercise 2B | G14 | Angles: quadrilaterals |
| To understand how to translate a shape | Exercise 2C | G5 | Translations: describing |
| To enlarge a 2D shape by a scale factor | Exercise 2D | G28 | Enlargements |
| To construct the mid-point and the perpendicular bisector of a line | Exercise 2E | G26a | Constructions: <br> perpendicular bisector |
| To construct an angle bisector | Exercise 2E | G26c | Constructions: angle <br> bisector |
| To construct a perpendicular to a line from or at a given point | Exercise 2E | Constructions: <br> perpendicular to point |  |
| To construct a right-angled triangle | Exercise 2E | Constructions: 90 degree <br> angle |  |

## Probability

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To recognise mutually exclusive and exhaustive events | Exercise 3A | P3 | Probability: not happening |
| To use a probability scale to represent a chance | Exercise 3B | P1 | Probability: scale |
| To use sample spaces to calculate probabilities | Exercise 3C | P2b | Probability: sample space |
| To use relative frequency to estimate probabilities | Exercise 3C | P7 | Probability: relative <br> frequency |

TERM 2

## Percentages

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To write one quantity as a percentage of another | Exercise 4A | N39a | Percentages: expressing as |
| To use a multiplier to calculate a percentage change | Exercise 4B | R9b | Percentages: multipliers |
| To work out a change in value as a percentage increase or decrease | Exercise 4C | N39b | Percentages: <br> increasing $\backslash$ decreasing |

## Congruent shapes

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To recognise congruent shapes | Exercise 5A | G31 | Congruent shapes |
| To know the conditions for recognising congruent triangles | Exercise 5B | G31 | Congruent triangles |
| To solve geometrical problems using congruent triangles | Exercise 5C | G31 | Congruent triangles |

## Surface area, volume and prisms

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To convert metric units for area and volume | Exercise 6A | R2 | Units: converting areas |
| To calculate the surface area of a prism | Exercise 6B | G25b | Surface area: other prisms |
| To calculate the volume of a prism | Exercise 6C | G25a | Volume: prism |

## TERM 3

## Graphs

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To extend the range of graphs of linear equations | Exercise 7A | A14a | Linear graphs: (across one <br> method) |
| To work out the gradient in a graph from a linear equation | Exercise 7B | Linear graphs: gradient of a <br> line |  |
| To work out an equation of the form $y=m \mathrm{~m}+\mathrm{c}$ from its graph | A14c | Linear graphs: find equation <br> of a line |  |
| To recognise and draw the graph from a quadratic equation | Exercise 7C | A15 | Quadratic graphs: drawing <br> graphically |
| To solve a quadratic equation from a graph | Exercise 7D | A21b | Quadratic graphs: sketching <br> using key points |
| To draw graphs from real-life situations to illustrate the relationship <br> between two variables |  | A15 |  |

## Number

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| How to multiply and divide by negative powers of 10 | Exercise 8A | N45a | Multiplication: powers of <br> 10 |
| To round a specific number of significant figures | Exercise 8B | N38 | Rounding: significant figures |

| To write a large number in standard form | Exercise 8C | N45a | Standard form |
| :--- | :--- | :--- | :--- |
| To multiply with numbers in standard form | Exercise 8D | N45b | Standard form: <br> multiplication |

## Interpreting graphs

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To interpret different charts seen in the media | Exercise 9A | S1a and S2a | Graphs: pictograms <br> (interpret) |
| To draw pie charts relative to data size | Exercise 9B | S9 | Graphs: pie charts (draw) |
| To read scatter graphs | Exercise 9C | S8 | Graphs: scatter graphs <br> (interpret) |
| To understand correlation | Exercise 9C | S8 | Graphs: scatter graphs <br> (correlation) |
| To create scatter graphs and use a line of best fit | Exercise 9D | Graphs: scatter graphs (line <br> of best fit) |  |

## TERM 4

Algebra

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To simplify algebraic expressions by combining like terms | Exercise 10B | A6 | Algebra: collecting like <br> terms |
| To remove brackets from an expression | Exercise 10C | A8 | Algebra: expanding brackets |
| To manipulate algebraic expressions | Exercise 10D | A13b | Algebra: changing the <br> subject |
| To identify algebraic expressions | A4 | Algebra: expressions - <br> forming |  |

## Shape and ratio

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To use ratio to compare lengths, areas and volumes of 2D and 3D shapes | Exercise 11A | R10 | Similar shapes: area |
| To enlarge a 2D shape by a scale factor | Exercise 11B | R10 | Enlargements: describing |
| To understand how to use map scales | Exercise 11C | R6 | Scales and maps |

## Fractions and decimals

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To add or subtract fractions and mixed numbers | Exercise 12A | N41 | Fractions: addition diff <br> denominators |
| To multiply a fraction or a mixed number and an integer | Exercise 12B | N42a | Fractions: multiplication |
| To divide a fraction or a mixed number by an integer | Exercise 12C | N42b | Fractions: division |
| To divide an integer or a mixed number by a fraction | Exercise 12C | N42b | Fractions: division |
| To multiply with combinations of large and small numbers mentally | Exercise 12D | N28a | Multiplication: decimals |
| To divide combinations of large or small numbers mentally | Exercise 12E | N16 |  |

TERM 5

## Proportion

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To understand the meaning of direct proportion | Exercise 13A | R8 | Proportion: direct |
| To find missing values in problems involving proportion | Exercise 13A | R8 | Proportion: unitary method |

| To represent direct proportion graphically and algebraically | Exercise 13B | R8 | Proportion: direct |
| :--- | :--- | :--- | :--- |
| To understand what inverse proportion is | Exercise 13C | R13 | Proportion: inverse |
| To use graphical and algebraic representations of inverse proportion | Exercise 13C | R13 | Proportion: inverse |
| To recognise direct and inverse proportion and work out missing values | Exercise 13D | R13 |  |

## Circles

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To know the definition of a circle and the names of its parts | Exercise 14A | G2 | Circles: parts |
| To work out the relationship between the circumference and diameter of <br> a circle | Exercise 14A | G22a | Circles: circumference |
| To calculate the circumference of a circle | Exercise 14B | G22a | Circles: circumference |
| To calculate the area of a circle | Exercise 14C | G22b | Circles: area |

## TERM 6

## Equations and formulae

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To solve equations involving brackets | Exercise 15A | A19a | Equations: solving |
| To solve equations where the answers are fractions or negative numbers | Exercise 15A | A19a | Equations: <br> involving fractions |
| To solve equations with the variable on both sides | Exercise 15B | A19b | Equations: letters both <br> sides |
| To solve equations with brackets and fractional coefficients | Exercise 15C | A19a | Equations: <br> involving fractions |
| To solve simple equations involving squares | Exercise 15C |  |  |

| To change the subject of a formula | Exercise 15D | A13b | Algebra: changing the <br> subject |
| :--- | :--- | :--- | :--- |
| To change the subject of a formula involving squares | Exercise 15D | Algebra: changing the <br> subject advanced |  |

## Comparing data

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To create a grouped frequency table from raw data | Exercise 16A | S4 | Graphs: bar charts (draw) |
| To interpret frequency diagrams | Exercise 16B | S5 | Graphs: frequency polygons |
| To draw a frequency diagram from a grouped frequency table | Exercise 16B | S4 | Graphs: frequency polygons <br> (draw) |
| To be able to compare data from two sources | Exercise 16C |  | Graphs: bar charts (reading) |
| To recognise when a statistical chart may be misleading | Exercise 16D |  |  |

## ENRICHMENT TASKS

Parallel Maths tasks - complete the weekly challenges set through the site. Link: https://parallel.org.uk/ . When registering using your school email address, use the school code s5k0s2.

Nrich Maths tasks - read the Latest Feature article or complete an Activity. Link: https://nrich.maths.org/secondary
Cipher Challenge - complete past challenges from the National Cipher Challenge. Link: https://2021.cipherchallenge.org/
Numberphile - find out more about interesting topics in mathematics. Link: https://www.youtube.com/numberphile

## YEAR 9 INDEPENDENT WORK TASKS

Homework tasks will be set on a weekly basis. As one of the two fortnightly tasks, students will be set fortnightly homework assignments through MathsWatch to be completed. All students have their own log-in to MathWatch. Students will be provided with a homework textbook that accompanies the textbook used in lessons. Some students will also be provided with a booklet of UK Maths Challenge problems to support them preparing for the UK Maths Challenge in April.

We encourage all students enrol with Parallel and complete the weekly challenges set through this site. Link: https://parallel.org.uk/. When registering using your school email address, use the school code S5k0s2

Students can undertake additional independent tasks to support developing their understanding and retrieval of the mathematics covered in lessons. Students can do this in several ways:

- Watching Mathswatch clips of the concepts covered in lessons. Link: http://vle.mathswatch.co.uk/vle
- Completing Mathswatch interactive questions on the topics covered. Link: http://vle.mathswatch.co.uk/vle
- Completing homework exercises for the topics covered for the homework book provided. A copy of Maths Frameworking homework book has been provided.
- Completing Corbett Maths textbook exercise or practice questions. Link: https://corbettmaths.com/contents/

Below are the topics covered each term and details of the MathsWatch clip and relevant homework exercise.
There are further tasks towards the end of this document to support enrichment with mathematics that explore and extend the taught curriculum.

TERM 1

## Percentages

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |

| To understand what is meant by simple interest | Exercise 1A | 111 | Percentages: <br> increasing $\backslash$ decreasing |
| :--- | :--- | :--- | :--- |
| To solve problems involving simple interest | Exercise 1A | 111 | Percentages: <br> increasing $\backslash$ decreasing |
| To use the multiplier method to calculate the result of a percentage <br> increase or decrease | Exercise 1B | Percentages: multipliers |  |
| To calculate the percentage change in a value | Exercise 1B | 109 | Percentages: change |
| Given the result of a percentage change, to calculate the original value | Exercise 1C | 110 | Percentages: reverse |
| To calculate the result of repeated percentage changes | Exercise 1D | 164 | Percentages: compound <br> interest |

## Equations and formulae

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :--- |
| To expand brackets and simplify more complex expressions | Exercise 2A | 134a | Algebra: expanding brackets |
| To factorise more complex expressions | Exercise 2B | 94 | Factorisation |
| To expand and factorise expressions with more than one variable | Exercise 2C | $134 a$ | Factorisation |
| To solve equations where the variable is in the denominator of a fraction | Exercise 2D | 135 | Equations: fractional <br> advanced |

## Polygons

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :--- |
| To work out the sum of the interior angles of a polygon | Exercise 3A | 123 | Angles: polygons |
| To work out exterior angles of polygons | Exercise 3A | 123 | Angles: polygons |
| To calculate the interior and exterior angles of regular polygons | Exercise 3B | 123 | Angles: polygons |
| To work out which regular polygons tessellate | Exercise 3C | 12a | Angles: tessellations |

## TERM 2

## Using data

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :--- |
| To infer a correlation from two related scatter graphs | Exercise 4A | 129 | Graphs: scatter graphs <br> (interpret) |
| To draw a line of best fit to show a correlation | Exercise 4A | Graphs: scatter graphs (line <br> of best fit) |  |
| To interpret a variety of two-way tables | Exercise 4B | Ex | 61 |
| To estimate a mean from grouped data | Exercise 4D | $130 \mathrm{Tables:} \mathrm{two-way} \mathrm{tables}$ |  |
| To draw a cumulative frequency diagram | Exercise 4D | 186 | Graphs: cumulative <br> frequency (draw) |
| To find the interquartile range | Exercise 4E | Graphs: box plots- <br> draw |  |
| To planterpret $a$ statistical investigation |  |  |  |

## Application of graphs

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To interpret step graphs | Exercise 5A | 143 |  |
| To interpret and draw time graphs | Exercise 5B | 143 | Graphs: distance-time <br> graphs |
| To draw exponential growth graphs | Exercise 5C | 194 | Types of graph: exponential |

## Pythagoras' theorem

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |

| To use Pythagoras' theorem in right-angled triangles | Exercise 6A | 150a | Pythagoras |
| :--- | :--- | :--- | :--- |
| Using Pythagoras' theorem to solve problems | Exercise 6B | 150b | Pythagoras: <br> rectangles/isosceles tri |
| To use the converse of Pythagoras' theorem | Exercise 6C | 150c <br> right angoras: show triangle is |  |

## TERM 3

## Fractions

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :---: |
| To choose an appropriate method to add or subtract mixed numbers | Exercise 7A | 71a | Fractions: addition diff <br> denominators |
| To multiply two fractions or mixed numbers | Exercise 7B | 73 | Fractions: multiplication |
| To divide one fraction or mixed number by another fraction or mixed <br> number | Exercise 7C | 74 | Fractions: division |
| To add, subtract, multiply or divide fractions containing a variable | Exercise 7D | 210a | Algebraic fractions: addition |

## Algebra

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To multiply out (or expand) two brackets | Exercise 8A | 134 b | Algebra: expanding two <br> brackets |
| To multiply out three or more brackets | Exercise 8B | Algebra: expanding three <br> brackets |  |
| To factorise quadratic expressions with positive coefficients | Exercise 8C | 178 | Factorisation: quadratics |
| To factorise quadratic expressions with negative coefficients | Exercise 8D | 157 | Factorisation: quadratics <br> harder |

| To recognise and use the difference of two squares | Exercise 8 E | 158 | Factorisation: difference <br> of 2 squares |
| :--- | :--- | :--- | :--- |

## Decimal numbers

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :--- |
| To understand and work with both positive and negative powers of ten | Exercise 9A | 131 | Multiplication: powers of 10 |
| To understand and work with standard form, using both positive and <br> negative powers of ten | Exercise 9B | 83 | Standard form |
| To multiply numbers in standard form, using both positive and negative <br> powers of ten | Exercise 9C | 83 | Standard form: <br> multiplication |
| To divide numbers in standard form, using both positive and negative <br> powers of ten | Exercise 9D | 83 | Standard form: division |
| To understand the limits of accuracy when using rounded data | Exercise 9E | 155 | Limits of accuracy |

## TERM 4

## Right angled triangles

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :--- |
| To understand what trigonometric ratios are | Exercise 13A | 168 | Trigonometry introduction |
| To understand what the trigonometric ratios sine, cosine and tangent are | Exercise 13B | 168 | Trigonometry: Exact values |
| To find the angle identified from a trigonometric ratio | Exercise 13C | 168 | Trigonometry missing <br> angles |
| To find an unknown length of a right-angled triangle given one side and an <br> angle | Exercise 13D | 168 | Trigonometry missing sides |

## TERM 5

Solving equations

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| To understand what trigonometric ratios are | Exercise 13A | 168 | Trigonometry introduction |
| To understand what the trigonometric ratios sine, cosine and tangent are | Exercise 13B | 168 | Trigonometry: Exact values |
| To find the angle identified from a trigonometric ratio | Exercise 13C | 168 | Trigonometry missing <br> angles |
| To find an unknown length of a right-angled triangle given one side and an <br> angle | Exercise 13D | 168 | Trigonometry missing sides |

## Compound units

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :---: | :--- |
| To understand and use measures of speed | Exercise 12A | 142 | Speed, distance and time |
| To understand and use density and other compound units | Exercise 12B | 142 | Density |
| To understand and use unit pricing | Exercise 12C | 41 | Number: best buys |

## TERM 6

## Basic number

| Learning objective | Maths Frameworking <br> exercise | Mathswatch clip <br> reference | Corbett Maths reference |
| :--- | :--- | :--- | :--- |
| Solve problems set in a real-life context. | 1 A |  |  |
| Multiply a decimal number by another decimal number. | 1 B | 66 |  |
| Divide a decimal by changing the calculation to division by an integer. | $1 B$ | 67 |  |

| Round to a given number of significant figures. | 1 C | 90 |  |
| :--- | :--- | :--- | :--- |
| Approximate the result before multiplying/dividing two numbers together. | 1 E | 91 |  |
| Round a calculation, at the end of a problem, to give what is considered a <br> sensible answer. | 1 E | 32 |  |
| To identify multiples, factors, primes, squares, cubes and triangular <br> numbers. | 1 F | 28 |  |
| To identify prime factors. | 1 F | 81 |  |
| Identify the LCM and HCF of two multiples. | 1 H | 78 |  |
| Multiply and divide positive and negative numbers. | 1 H | 79 | 80 |
| BIDMAS. | 1 I | 68 |  |

## Fractions, ratio and proportion

| Learning objective | Maths Frameworking exercise | Mathswatch clip reference | Corbett Maths reference |
| :--- | :---: | :---: | :---: |
| Find one quantity as a fraction of another. | 2A |  |  |
| Add and subtract fractions with different denominators. | 2 B | 71 |  |
| Multiply and divide proper fractions. | 2C | 73 |  |
|  | 2 C | 74 |  |
| Multiply and divide mixed numbers. | 2C | 73 |  |
| To use all four operations with fractions on a calculator. | 2 C | 74 |  |
| Increase and decrease quantities by a percentage. | 2D |  |  |
| Express one quantity as a percentage of another. | 2 E |  |  |
| To work out percentage change. | 2 F | 108 |  |

## ENRICHMENT TASKS

Parallel Maths tasks - complete the weekly challenges set through the site. Link: https://parallel.org.uk/ . When registering using your school email address, use the school code s5k0s2.
